Recharging the Power Bank

Specifications

Cell Capacity	5,000mAh
USB-C Input	5V = 2A
USB-C Output	5V = 2.4A
Wireless Output	5W / 7.5W
Total Output	12W

Important Safety Instructions

1. WARNING: follow the manufacturer's instructions when using this product.
2. Operating temperature should be between 32°F - 95°F / 0°C - 35°C. Do not expose this product to fire or excessive temperature. Do not store this product in direct sunlight or in a vehicle. Exposure to fire or temperature above 100°C may cause explosion.
3. Use of a power supply or charger not recommended or sold by the product manufacturer may result in fire, explosion or injury.
4. Do not disassemble this product. Refer all servicing to qualified service personnel. Incorrect reassembly may result in fire, explosion or injury.
5. Do not open, crush or incinerate this product. Do not replace the internal battery or cell by an incorrect type. These high-risk behaviors may result in fire, explosion or injury.
6. Do not use this product if it is damaged or modified. Damaged or modified products may lead to fire, explosion or injury.
7. Do not use this product in excess of its output rating. Overload outputs above rating may result in fire, explosion or injury.
8. Do not expose this product to low pressure environments. A battery subjected to extremely low air pressure may lead to explosion or leakage of flammable liquid or gas.
9. Do not expose this product to rain or snow.
10. Do not put fingers or hands into the product.
11. To reduce the risk of injury, close supervision is necessary when this product is used near children.
12. Switch off, deactivate or unplug this product when not in use.
13. Unplug and retract the AC plug of this product to disconnect from line voltage.
14. This product is designed for use with IT equipment only.
15. This product is intended to be operated up to 6,561 ft / 2,000 m above sea level.
16. This product must not be placed near naked flame sources such as candles.
